

# Airless Manual Spray Gun ALG 7 TE

**NEW**

**Nozzle Gland Set Thread  
UNF 11/16"**

- Trigger load: 2,26 kgf.
- High safety design: the resisting pressure is quadruple to the maximum working pressure.
- Easy maintenance: it is not necessary to use any special tools to disassemble/assemble. The needle valve set is a complete assembly.
- Easy cleaning: less resistance means less deposit inside the fluid passage due to expansion of the diameter.
- Inner material of swivel joint in Stainless Steel SUS303 with special treatment "Tuffride" that increases its durability.

stainless steel  CE   II 2 G X

## TECHNICAL SPECIFICATIONS

Model	 bar	Use	Filter	Hose connection	Operating temperature	Noise level	 g
ALG-7 TE	250 bar	general	100 mesh	G 1/4"	5-40° C	62.9 dB (A)	440
